

# Thank you for renewing your WSIA membership!

What does your membership investment provide?

## Impact.

We are the employer community's recognized leader in the state capital on workers' comp and safety issues. We are the only association focusing exclusively on these issues and the only association employing full time lobbyists to concentrate specifically on them.

## Training.

We are the region's largest provider of continuing education for workers' comp, supporting our own Washington Workers' Compensation Professional (WWCP) certification as well as many other professional designations. Members receive a discounted price on trainings, and several per year are offered to members for free.

## Information.

We are your information source for the latest news and developments affecting your company. Whether through our website, blog, weekly newsletter, Facebook page, or action alerts, we track the top issues in Washington and around the country and get that information out to you quickly.

## Community.

We pull together our members each year in five seasonal conferences, our marquee annual conference, in regional meetings, seminars, and workshops, to network, socialize, and learn from industry experts, decision-makers, and one another.

## Support.

We want your workers' comp and workplace safety programs to succeed—for you, your company, and your employees. Have an issue? Need a referral, a contact, or a some information? If we don't know the answer, we know where to find it.

## Value.

We work hard at the Legislature and at Labor & Industries to keep your program costs and assessments in check, and we work with vendors to achieve discounts on items like hearing aids and services like utilization review. Members frequently comment that the money they save accessing WSIA benefits outweighs the cost of dues.
