# Washington State
Medical EDI Flows

This view shows the over-all flow of data. Please see subsequent pages for individual entity flow of data.

Bills from Providers

TPA or SAE pays bill

(Bills can be entered manually or a combination of OCR and manual entry.)

TPA or SAE receives recommendation from MBRC

MBRC reviews bill

(Bills can be entered manually or a combination of OCR and manual entry.)

**NOTE: Some SAEs and TPAs will handle the simple bills and let the Med. Bill Review Co. handle the complex ones. They can also use multiple MBRC's; i.e. 1 for pharmacy, 1 for PT/OT/MT, 1 for professional / institutional.

Is data stored in house?

Yes → **TPA or SAE sends data to ISO**

No ↓

Is there a vendor?

Yes → **Vendor stores data** → **Vendor sends data to ISO**

No ↓

Payment data is sent to MBRC

MBRC pays bill

Is there a vendor?

Yes → **MBRC stores data**

No → **MBRC stores data**

Med. Bill Review Co. sends data to ISO

ISO receives data & formats & sends to L&I
